Re: Net Neutrality

To Whom It May Concern:

My Name is Seth Compton and I am writing about 17-108 the repeal of net neutrality. I believe that repealing net neutrality will be detrimental to American small businesses and the American consumer. It will grant large corporations the ability to decide the fate of businesses as well as control the flow of information to the American people. This placing too much trust and power in the hands of a select few rather than the American people. Repealing net neutrality will also negatively affect the growth of lower income, and rural areas making it hard for them to access the internet.

Please choose to not support the repeal of net neutrality, and stand up for the American people.

Thank you,

Seth Compton
